

500/502 Coldblast®

Attaches to Any Fan
to Provide Instant Cooling

The Coldblast® - Turns any fan into a
high performance flash evaporative cooler.

Defeat the Heat!

Employing the principles of both flash evaporative and convective cooling - The Coldblast® can make the most inhospitable indoor/outdoor areas cooler and more comfortable. The high efficiency pump combined with our stainless steel misting rings deliver an ultra fine mist, producing exceptional cooling, without getting personal or equipment wet.

The Coldblast® will produce a safer, more productive and hospitable environment.
